METHODIST CAMPAIGN

Mr. & Mrs. J. D. Bryan, Edith Gaines, Boyd Marquise and C. B. McDowell attended a meeting of the Evangelical Mission at the Opp. Methodist Church Tuesday evening.

T. S. Harris, superintendent of the Troy district, presided and explained the campaign that is being launched in the schools in nine Southern states.

Rev. W. L. Tubb, former pastor of the Elba Methodist church and now in Phenix City, was a principal speaker.

It was suggested Enterprise be invited.

A national tour for the association to Atlanta in April was in the formative stage.

Friday, Feb. 13, elementary teachers have been asked by Mr. and Mrs. C. C. Crosson, superintendents in Coffee County, to meet at the Elba High School for a discussion of teaching elementary children. A special consultant will be there.

The school board of Coffee County has decided to build a new school at the place where she died. She was a daughter of Nancy Matthews and Jim Whitaker.

Surviving are her husband, E. R. Jones, Jr., of Phenix City, and Berrien Lee, 27, their daughters, Mrs. Ara Kelley, Mrs. Eta Martin and Mrs. Bonnie Maddox, all of Cleveland, Mrs. Alice Lee, Mrs. Shirley, Mrs. Jewell Strickland and Mrs. Linda Hines.

Funeral services were held on Feb. 4 at New Hope church, Rev. Q. P. Jones officiating. Burial was in New Hope cemetery, Hayes Funeral Home directing.

VANDALS AT WORK

Ed Lee Jr., janitor at the courthouse, reports vandals were at work in the courthouse rest rooms late Saturday night causing considerable damage to property.

After midnight, Mr. Lee was called to the courthouse and found several toilets, upholstered doors and windows shattered. The water was left on, flooding the rooms and flowing clear on to the yard. To repair the damage, a small crew of maintenance men were sent to the downstairs rest room for a time. Mr. Lee said he is quite sure

Sgt. Rowe recently made from the base camp on the base paper with his photo and the signal light which he designed to direct traffic from the main highway to the base camp. He is a graduate in the writerup. He has been in Bermuda for about two years.

Sgt. Rowe was married last Saturday and reported they like their situation so well that he has requested a six-month extension of his tour of duty there.

Sgt. Rowe is connected with the Bermuda-Columbia Seismograph Station, a branch of Columbia University.

RAKINS SPONSORS BILL

The Elba Textile Company plans to have a bill introduced in the legislature to allow 18-year-olds to vote. He said he has found a majority of senators throughout the state in favor of his proposal.

Senators who are in agreement do not believe it just to send 18-year-olds overseas to get shot and not have the say-as-to how their government is being operated.

John Rakins, state senator for Coffee County, announced this week he intends to introduce a bill in the coming session of the legislature to allow 18-year-olds to vote. He said he has found a majority of senators throughout the state in favor of his proposal.

Kinston News

John Pierce spent the week end in Mobile with Mr. & Mrs. Chester Pierce. Mickey, three-year-old son of Mr. & Mrs. Pierce, is in a Mobile infirmary for treatment of a broken leg received in a car wreck two weeks ago.

Douglas Hargrave, a local boy, was born at the Mitchell Memorial Hospital where he underwent a major operation Monday of last week.

Obie Ward of Opp visited his home Monday, Ohio is a merchant seaman. He recently made a trip to Chile in South America for treatment of a broken leg received in a car wreck two weeks ago.

Dozier Hargrave, a local boy, was born at the Mitchell Memorial Hospital where he underwent a major operation Monday of last week.

A Message to Alabama Power Company's Customers and Friends

RECENTLY our Board of Directors approved a budget for 1953 of \$39,000,000 for additions and improvements to electrical generating, transmission and distribution facilities. They also approved an operating budget of \$63,000,000.

The expenditure of these two sums has just two objectives. The first is to assure you, our customers and friends, of adequate electric service and dependable electric service. The second is to keep ahead of the economic development of Alabama so that as you want to expand your use of electricity and as new industries and new people come into Alabama there will be ample electric power for them also.

And new people are coming to Alabama. It is reliably reported that the rate of industrial growth here is about 50 per cent greater than the average for the nation. The growth and expansion of existing industries will be responsible for the greatest increase in electric power use and increased employment. Their success and expansion bring new industries to Alabama. New industries come for a variety of other reasons, such as a good market in the South for their products; raw materials, good transportation, elbow room, friendly people, reliable employees, ample water supply, and a good climate. Those who do not have their own research departments are finding increasing use of the facilities of Southern Research Institute at Birmingham.

Electric power used in the territory we serve, in 1952 amounted to 4,877,606,400 kilowatt-hours, an increase of 7½ per cent over 1951. We expect this total to be 5,563,768,000 kilowatt-hours in 1953 and to reach 6,604,755,000 kilowatt-hours by 1955.

Alabama Power Company employees look with interest and pride on this increasing use of electric power. It assures them that they are a part of a growing enterprise engaged not only in the production of electric power but in actively assisting in the development of the area in which they live, and in the larger sense—the entire State of Alabama.

A great portion of the money spent by Alabama Power Company for pay rolls, taxes, fuel, materials and equipment enters trade channels and thus helps make business better in Alabama.

The Company can grow only as the territory it serves grows. For that reason we will in 1953, as in 1952 and in earlier years, work diligently with others in the development of the territory. We will continue the tradition that no industry need locate elsewhere because of the lack of adequate electric power in Alabama.

Whether you are a customer of long standing or a new one, we appreciate not only your business but your friendliness. We will strive to continue to merit not only your business but your regard.

We hope that all may participate in the rewards which continuing development of Alabama will bring.

L. M. Smith
President

Thomas W. Martin
Chairman of the Board

New Magazine Boosts State; Wins Praise

BURENANDO, Ia.—Making its initial appearance on Iowa newsstands this fall, a new magazine, "Iowaan," has already won praise from new readers.

The publication, described as a "magazine of Iowa life," is published by the Sentinel Publishing company of this home town. Its editor is Willard D. Archibald, whose son, David E. Archibald, is editor.

The magazine, originally interspersed with editorial matter, has been acclaimed by such Iowa civic and government leaders as Raymond Feltner, president of Associated County Women of the World, who said, "The Iowaan makes use of us who are homespun, making our gas tax money should give tremendous impetus to the forces in Iowa who are working to improve our resources of land and water."

Ed Feltner, world-famous baseball player, who said, "It's well past time for someone to start publishing a magazine that covers many, many great and wonderful things that Iowa produces and possesses."

Eward Hill, president of the Iowa Farm Bureau federation, who lauded the Iowaan for a "wonderful venture" and congratulated the publication.

"Truth ought to be fitted for, and not forced into, any mold we need it. The Master Teacher himself showed how this is done. Much of Jesus' most vital teaching was directed to us so we would call 'shepherds.' Sometimes his teachings were meant to trip him up like the three recorded in Matthew 23. Invariably they were from men cursing and grumbling who were desperate gropings for light. But whatever the motive, Jesus always gave them what they wanted. He used the advantage of the moment to remove a pointed truth. If only preachers and Sunday school teachers—and politicians too—would spend more time answering the questions people don't ask, instead of questions they're hot about, they'd be talking to the wrong people."

Dr. Foreman

Truth ought to be fitted for, and not forced into, any mold we need it. The Master Teacher himself showed how this is done. Much of Jesus' most vital teaching was directed to us so we would call 'shepherds.'

But whatever the motive, Jesus always gave them what they wanted. He used the advantage of the moment to remove a pointed truth. If only preachers and Sunday school teachers—and politicians too—would spend more time answering the questions people don't ask, instead of questions they're hot about, they'd be talking to the wrong people."

Truth ought to be fitted for, and not forced into, any mold we need it. The Master Teacher himself showed how this is done. Much of Jesus' most vital teaching was directed to us so we would call 'shepherds.'

"Sometimes his teachings were meant to trip him up like the three recorded in Matthew 23. Invariably they were from men cursing and grumbling who were desperate gropings for light. But whatever the motive, Jesus always gave them what they wanted. He used the advantage of the moment to remove a pointed truth. If only preachers and Sunday school teachers—and politicians too—would spend more time answering the questions people don't ask, instead of questions they're hot about, they'd be talking to the wrong people."

KERRY DRAKE

THIS HUMBLE OILFIELD NAVY MAN IS A VETERAN OF 25 YEARS OF NAVAL SERVICE AND THE WINNER OF THE SILVER STAR MEDAL, BRONZE STAR AND THE ARMY DISTINGUISHED UNIT EMBLEM.

JOHN BOHREER U.S. NAVY
CHIEF ELECTRICIAN'S MATE

DURING A PATROL, THE SUB SAW THIS NEARLY FLOODED TANKER. WATER GUSHED IN THRU AN EXHAUST VALVE. BRAVING DEATH, BOHREER ENTERED A FLOODING TANKER AND SAVED BOTH SHIP AND CREW.

GOOD HEALTH

ANSWER TO Question No. 1:
Insulin has brought about one of the greatest medical miracles of all time. It is a hormone which was discovered in 1921 by Doctors Banting and Best. It not only controls diabetes, but also prolongs the lives of many sufferers. This can only be given by injection.

ANSWER TO Question No. 2:
Malocclusion is the term used to describe the poor control of the teeth. It is a condition where the upper teeth do not fit correctly over the lower jaw. The results of malocclusion are frequently harmful. The cause of the condition is rubber which has caused the trouble. (Copyright 1953 by Health Information Foundation)

JAYCEES PLAN EASTER DANCE

An Easter dance will be sponsored by the Jaycees Chapter of Elba. The meeting is set for 8 p.m. at the Civic Hall Tuesday night.

Charles Alfred Jr. was named chairman of the committee to handle the arrangements for the affair. Serving on the committee with him are Fred Clark and Jake Bonneau.

Mr. Bozell, Harry Hudson and wife, and Mattie were named to a committee to get the street marker project rolling. A treasurer's report at the last meet-

Greeting Cards at The Clipper**SPEED QUEEN****Lindsey-Thomason Furniture Company**

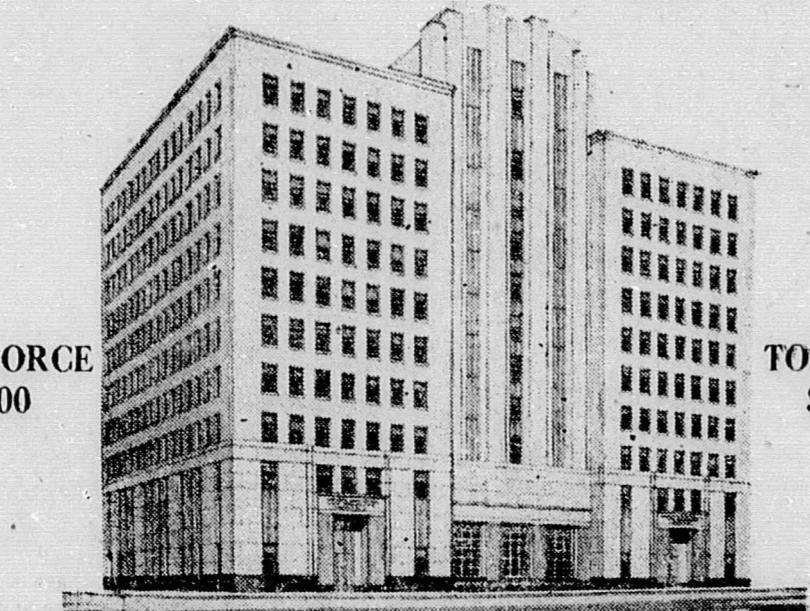

ing showed that while the club did not have enough money on hand to complete the project, there was enough to get rolling on.

A board of directors' meeting was called for Monday afternoon at 6 o'clock.

Mr. Roy Dungan and children were guests of their mother, Mrs. Lena Hudson last Friday.

Mr. and Mrs. John Hudson spent some time last week with their mother, Mrs. E. G. Crim of Opp. Mrs. Crim is 11.

Mr. & Mrs. J. C. Hall of Brantley were brief visitors here.

Mr. & Mrs. Claude Kendrick and family of Bethany were the guests of their sister, Mrs. Andrew Sturman.

Mr. & Mrs. J. A. Hudson spent some time last week in New Orleans having been called there by the serious illness of the daughter of Mr. & Mrs. W. L. Hudson, who underwent a heart operation last Wednesday. At least his condition was fair.

Mr. & Mrs. Carlton Hill of Brantley were housekeepers at

An institution grows in proportion to the service it renders. In serving the people of the area in which it operates, the Company paid over 26,000 claims during 1952 and disbursed more than \$7,000,000 to policyholders and beneficiaries. Over \$14,000,000 was loaned on mortgages to eligible families to acquire homes and to assist in the financing of businesses of all types. Nearly \$10,000,000 was loaned to governmental and corporate enterprises which supply the jobs and the payrolls in our land.

We at Liberty National like to feel that our continued growth comes as a result of such service. During 1952 insurance protection owned by policyholders increased over \$70,000,000 while resources for the protection of policyholders increased \$17,000,000.

To continue to serve—and serve well—is our firm resolve.

Aspen Twice Blessed With Sports, Culture

Cordell Hull was an extremely caustic speaker, striving always for justice. I once attended at a train, a friend pointed to a fine flock of sheep grazing in a field. "Look, those sheep have just been shorn," he said. "They have shorn the ascendancy, then sports take over."

Culture gave way to sports through the State of Colorado. The miners and the shepherds left the field to the hunters and the fishermen, and the sheep were sold at a price of \$100 per head.

The story of Aspen is one of the most remarkable in American history. Once the place was a rich silver mining center, and the 15,000 miners and their families built a town of substantial houses.

The architecture and furnishings were the finest the Victorian Age afforded.

From 1879 until 1893

they were repaid of the silver

purchasing act, Congress, and overnight Aspen, along with many other Colorado towns, became a place of unemployment and despair.

The population dwindled, and through the years fine buildings fell into disrepair. Houses were updated and still stand vacant. Although never becoming a ghost town, rigor mortis seemed about to set in. But now culture and sports have put Aspen back on the map.

In Piccadilly Circus one afternoon, there were the usual number of panhandlers, but one seemed to be far better dressed than the rest. We watched him approach various people, always with the same result: an up-and-down shuffling gait, a smile, and a speech that sounded like a jingle.

"Do you think your son will forget me?" he would say. "He's a good boy, but he's not the best."

"I hope so," was the reply.

"He can't make a living working."

"I hope so," was the reply.

"He can't make a living working."

"I hope so," was the reply.

"He can't make a living working."

"I hope so," was the reply.
